

AGROMÉTODOS is an organisation dedicated to designing, producing and distributing products for plant nutrition and crop protection. *AGROMÉTODOS* has a Quality and Environmental Management System based on the UNE-EN-ISO 9001:2015 and UNE-EN-ISO 14001:2015 standards. *AGROMÉTODOS* Management commits to meeting and communicating the following values and commitments:

1. To continually improve the effectiveness of processes through the organisation's *Quality and Environmental Management System* and monitoring thereof I.
2. To focus the *Management's* efforts on continuous improvement, updating our internal processes and codes of good practice, increasing the quality of our products and services.
3. To meet customer requirements, as well as mandatory legal and regulatory obligations and internal rules.
4. To encourage employee participation and promote their personal and professional development.
5. To develop our activities with regard to the environment and protection of biodiversity, via the sustainable use of resources to contribute to environmental protection, sustainable development and preventing pollution.

Quality and environmental management are a commitment and the responsibility of all *AGROMÉTODOS* employees and they shall actively participate in the upkeep and ongoing improvement of our *Quality and Environmental Management System*.

The *Management* commits to having the necessary human resources and infrastructure to meet the requirements of the activities that are undertaken, the aims and the continual improvement of the effectiveness of our *Quality and Environmental Management System*. This quality and environmental policy is reviewed annually to ensure that it is suitable for the organisation's context and strategic orientation. It is communicated to and is available for the relevant interested parties.
